CSE434 Aspect and Service-Oriented Software Systems

Lab 5 Assignment

Name	Mohamed Mostafa Bedair ElMaghraby
ID	20P7732

Endpoints to be tested:

```java
import org.springframework.web.bind.annotation.RestController;

@CrossOrigin(origins = "*", maxAge = 3600)  no usages
@RestController
@RequestMapping("/api/test")
public class HomeController {

    @GetMapping("/restricted")  no usages
    @PreAuthorize("isAuthenticated()")
    public String testAuthentication() {
        return "protected endpoint";
    }

    @GetMapping("/all")  no usages
    public String testPublicAccess() {
        return "unprotected endpoint.";
    }

}
```
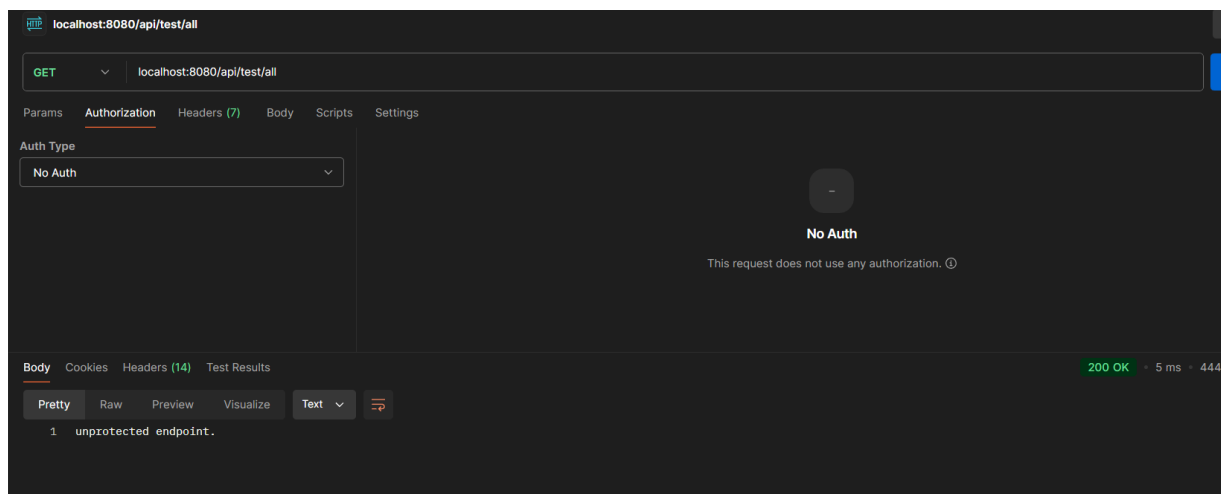

Sending a request with no token to an endpoint that requires authorization:
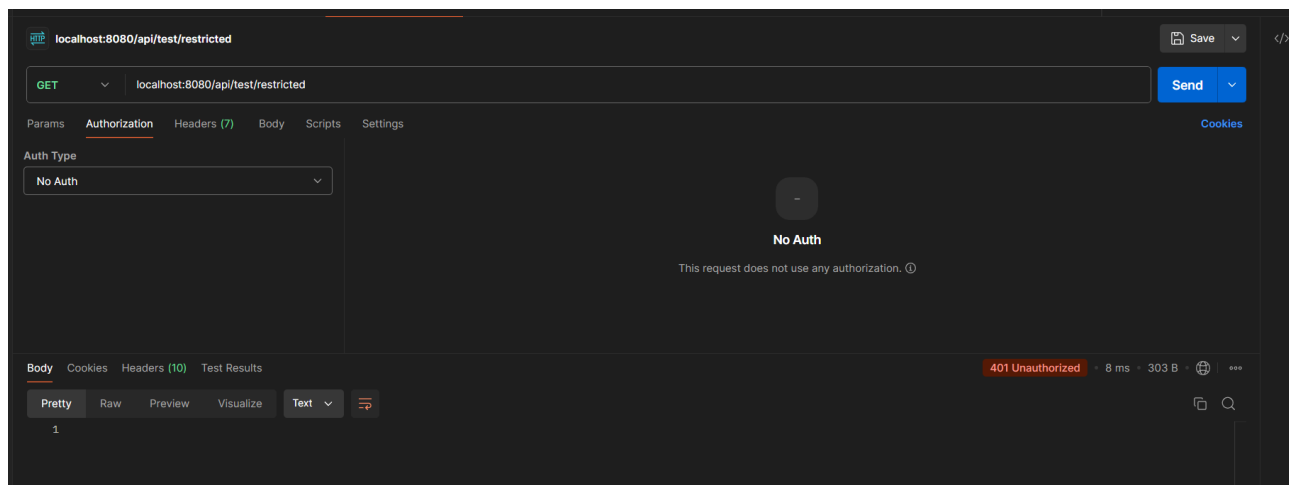

Sending a request with a token to an endpoint that requires authorization:
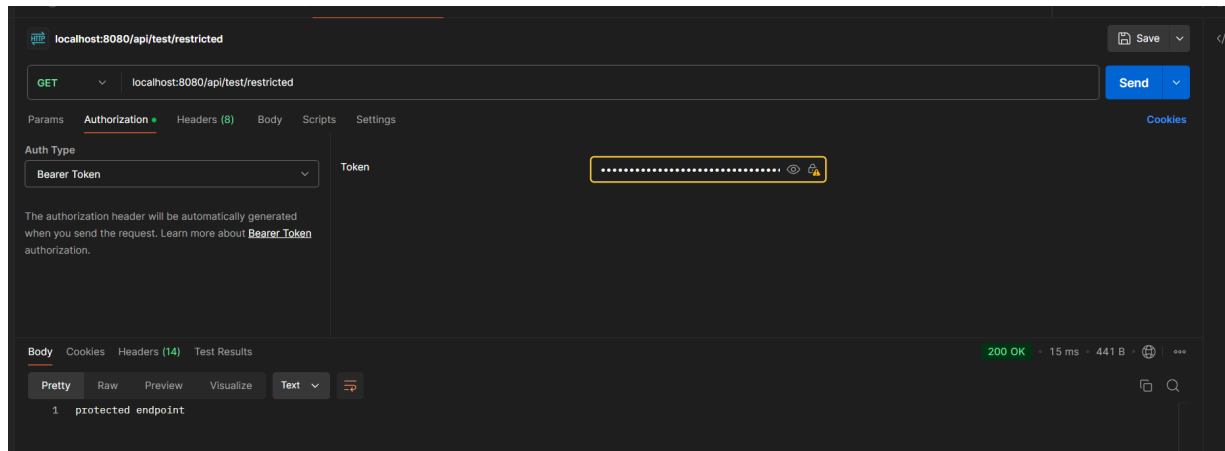

Sending a request to an endpoint that requires no authorization:
